

A frogs life cycle

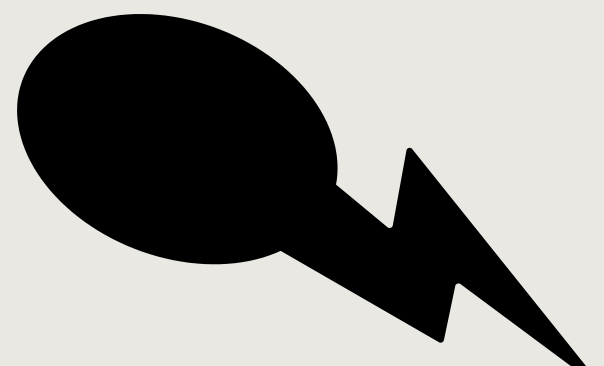

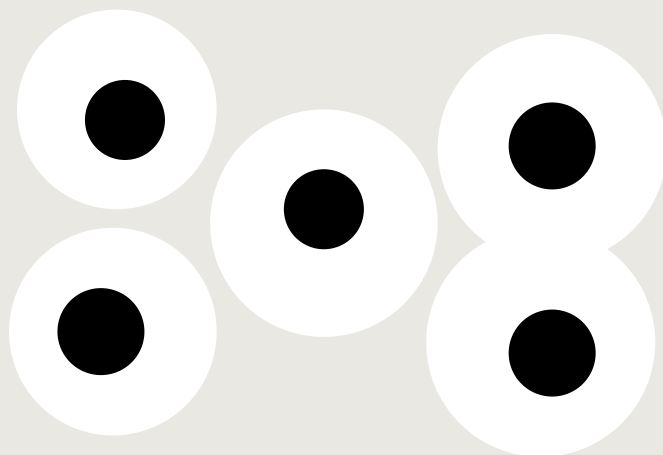

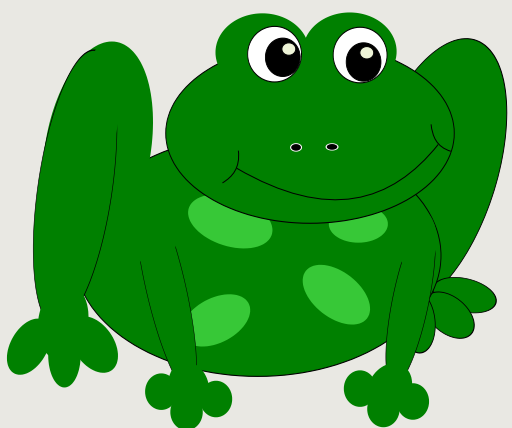

During springtime each year frogs begin to lay their eggs in ponds. Can you cut out the pictures and complete the frogs life cycle?

Fact: Bullfrog tadpoles can grow as long as a banana.

Fact: The UK has two native species of frog, the common frog and the pool frog..

Fact: Female frogs can lay anywhere between 2,000 -20,000 eggs.

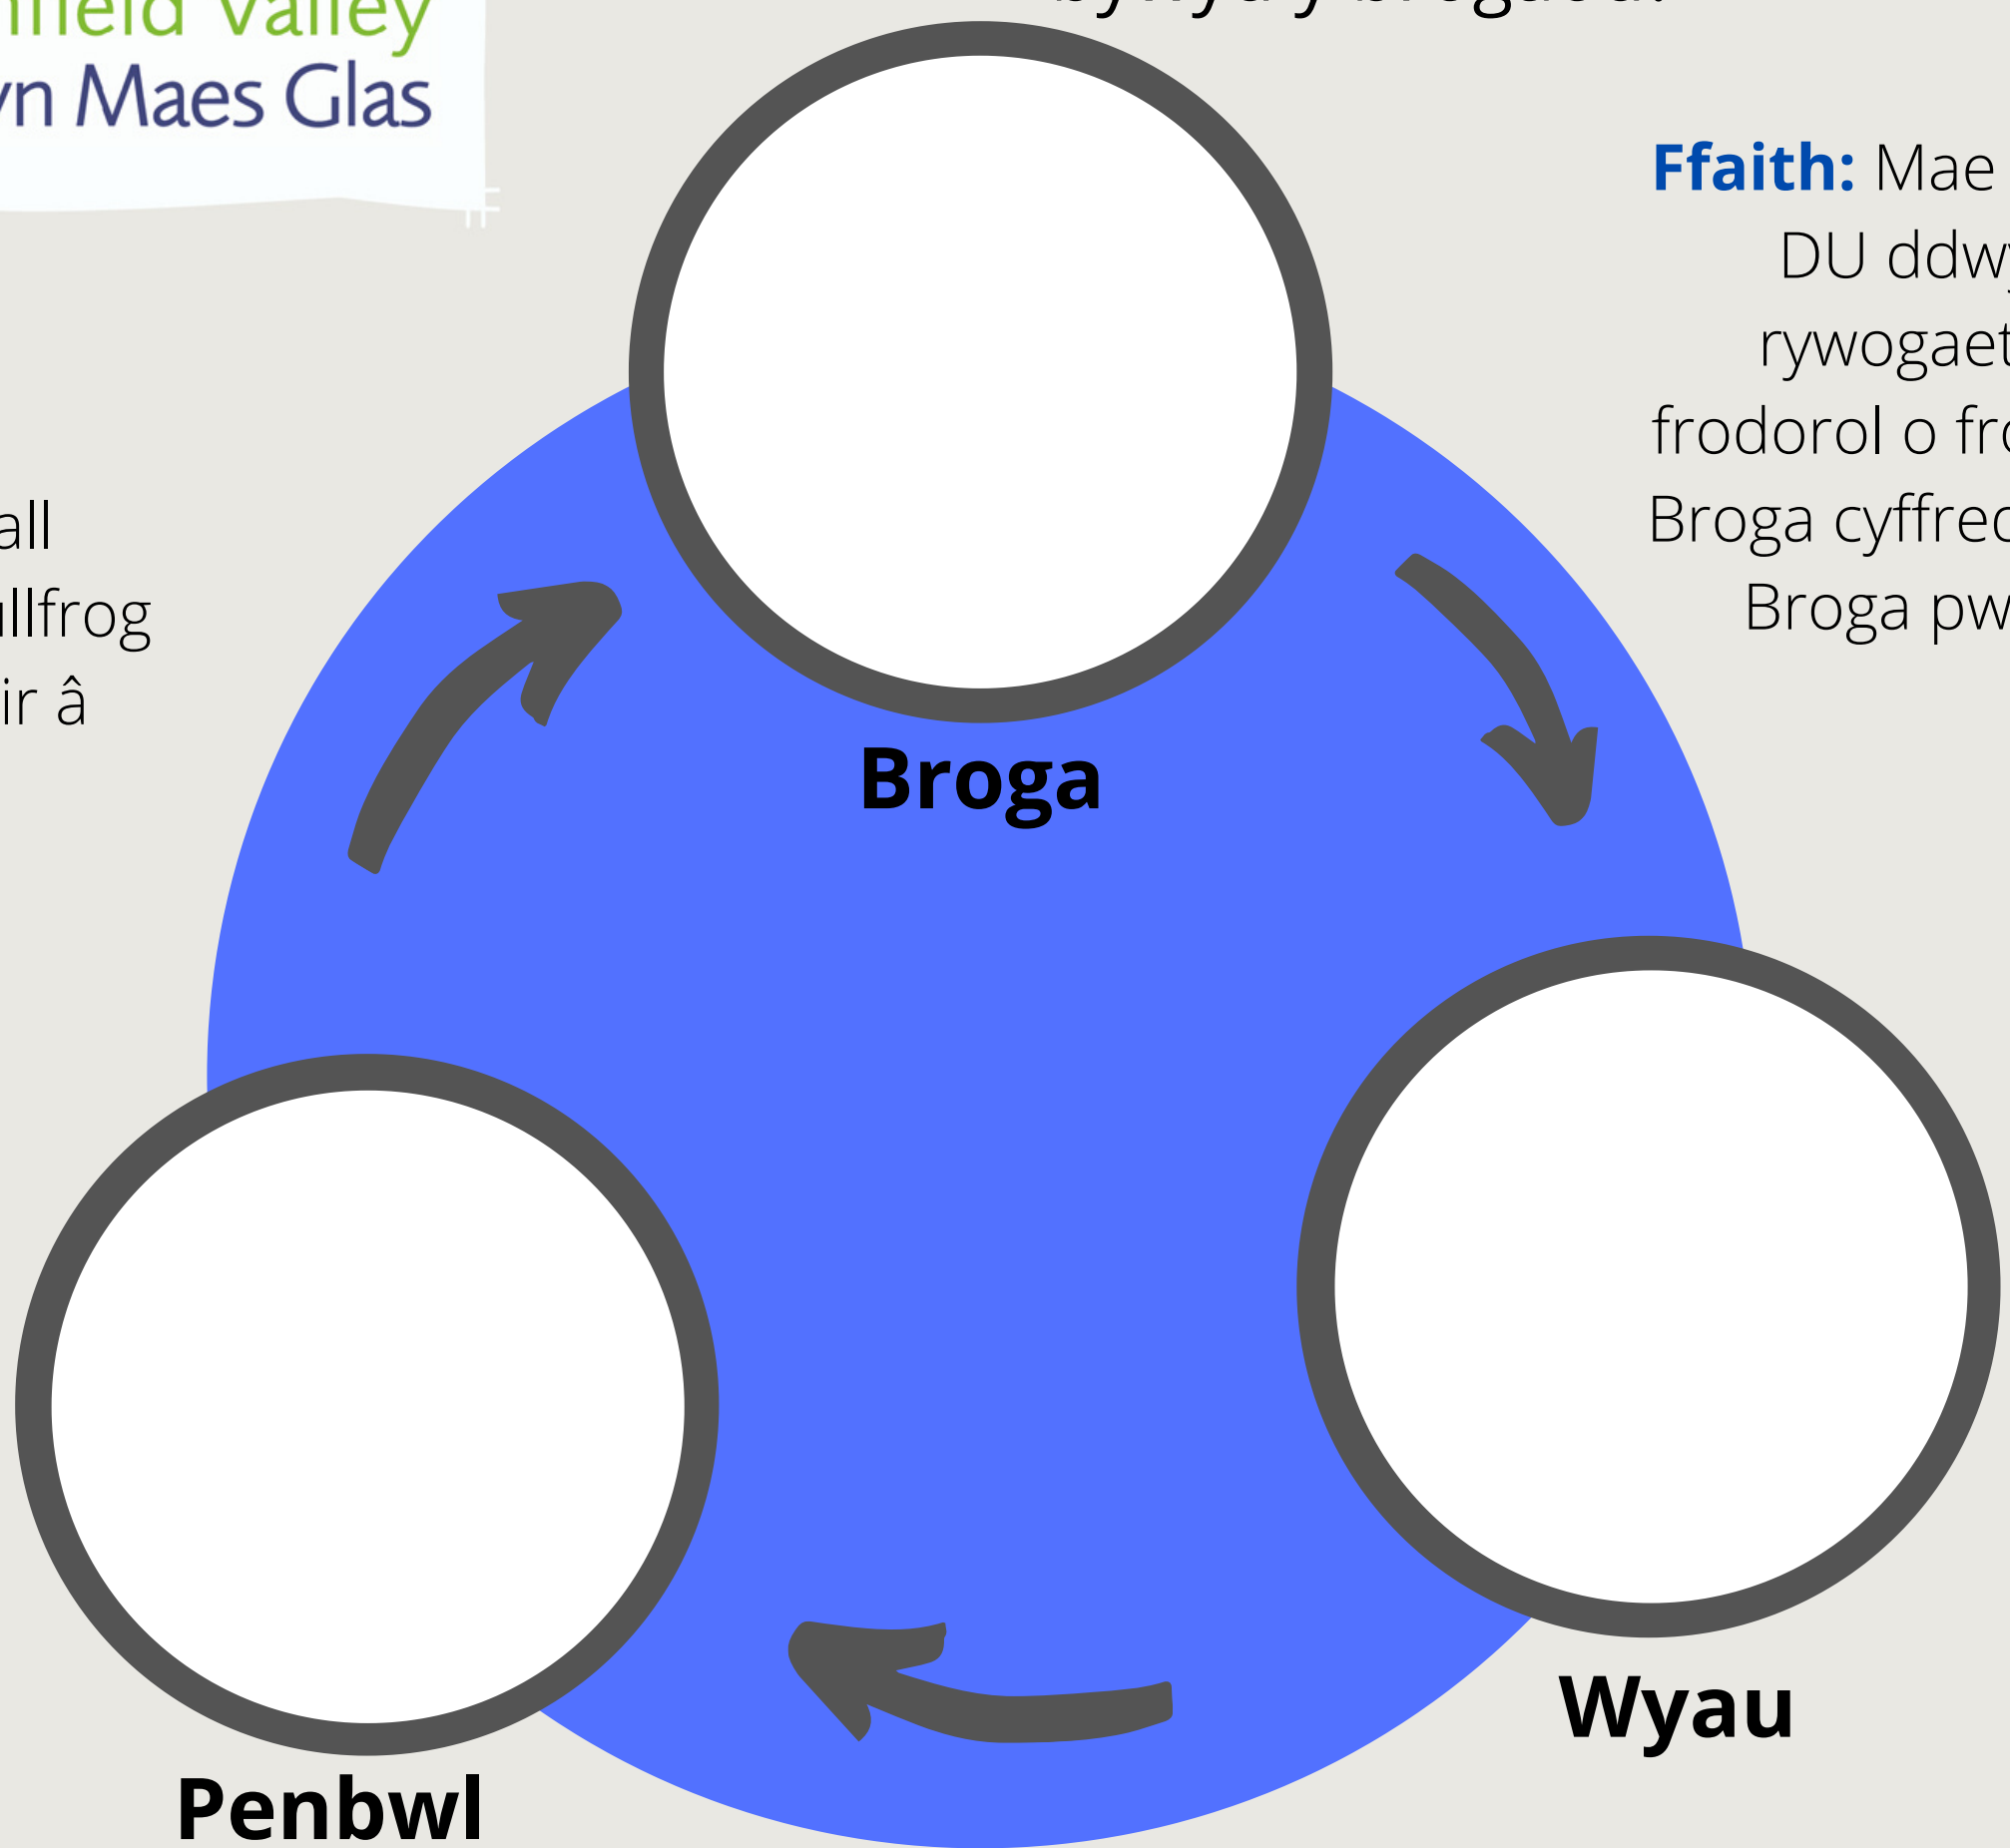

Cylch bywyd brogaod

Yn ystod y gwanwyn bob blwyddyn mae brogaod yn dechrau dodwy eu hwyau mewn pyllau. Allwch chi dorri'r lluniau allan a chwblhau'r cylch bywyd y brogaod?

Ffaith: Gall penbyliaid bullfrog dyfu mor hir â banana.

Ffaith: Mae gan y DU ddwy rywogaeth frodorol o froga, y Broga cyffredin a'r Broga pwll..

Ffaith: Gall frogaod benywaidd dodwy rhwng 2,000-20,000 o wyau.
